INSURANCE BACKED GUARANTEE (IBG) “GIVE” SCHEME

Our “Give” Scheme is for companies wishing to provide Deposit Protection and Insurance Backed Guarantee on installations. Unlike schemes from other companies we do not require companies to pay for a minimum number of guarantees per month, so this scheme would also be suited to the smaller companies operating within the market.

- We provide the guarantees to your customers as requested by you and for this service we charge you a monthly administration fee of **£10**. All we require is a copy of the completed installation list that you have advised CERTASS or FENSA (as an option we can also accept your completed installation data directly from FENSA).
- Payment for the administration fee and guarantees will be taken by Direct Debit.
